Press Release

21 December 2019: The Somalia Non-State Actors (SONSA), formerly known as Somalia South-Central Non-State Actors (SOSCENSA), represents civil society organizations, professionals, and businesses in the country. We welcome and support the joint press release from our international partners that stressed the importance of holding a free and fair election in Somalia in 2020/21.

The Somali Non-State Actors (SONSA) previously iterated that the Federal Government of Somalia, the Federal Parliament and the Federal Member States diligently prepare for an election to take place in 2020/21 by executing the necessary and required measures and activities to ensure that the election happens punctually. We also stressed that they take all measures to assure that every segment of the Somali society participates in the election.

SONSA emphasizes that the country's leadership and all other stakeholders involved in the 2020/21 electoral process work together to promote a free and fair universal suffrage election. SONSA is committed to their role in doing everything it can to increase the possibility of Somalia's 2020/21 one person, one vote election.
